K/18/18/HH

Extension of existing gate walls to include an additional pier & flint work on both sides of the gate entrance in place of the existing wooden panel fencing.

The application is for an extension of existing gate walls to include an additional pier and flint work on both sides of the existing gateway. The new walling would replace wooden panel fencing.

The entrance gates, piers and walling are located some distance from the listed building, and are modern construction, having been granted permission in 2003. It is considered that the scale and nature of the works are such that they will have a neutral impact upon the listed building. As a consequence, they are supported in accordance with policies HER SP1: The Historic Environment and HER DM1: Listed Buildings, of the adopted Arun Local Plan (2011-31).
