Dear Sian

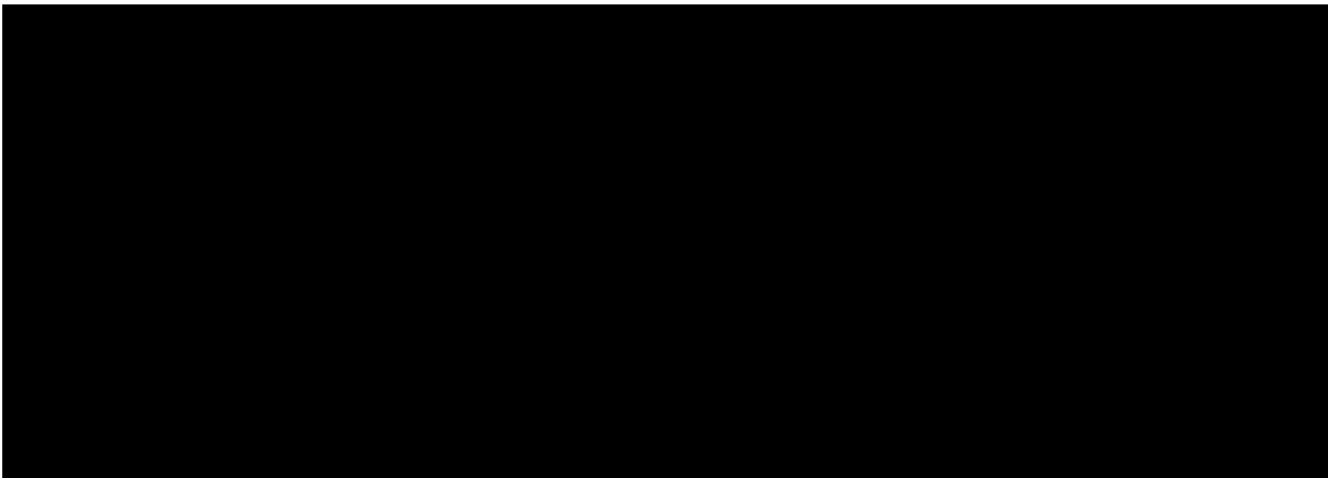

Thank you for providing this description in answer to our conversation earlier today.

The 'unknown' front room is a living room, so further to our latest telephone discussion the description sounds more accurate as following:

"Two storey rear extension, with a small canopy projecting the footprint to the front. Demolition of existing living room and additional first floor for habitable use with alterations to fenestration."

We would like to kindly ask for this query to be 'backtracked' and proceed with the application as per the original date of submission, if possible. As you can imagine we aim to avoid any delays with the process where possible.

Thank you for your help and correspondence.

Hello

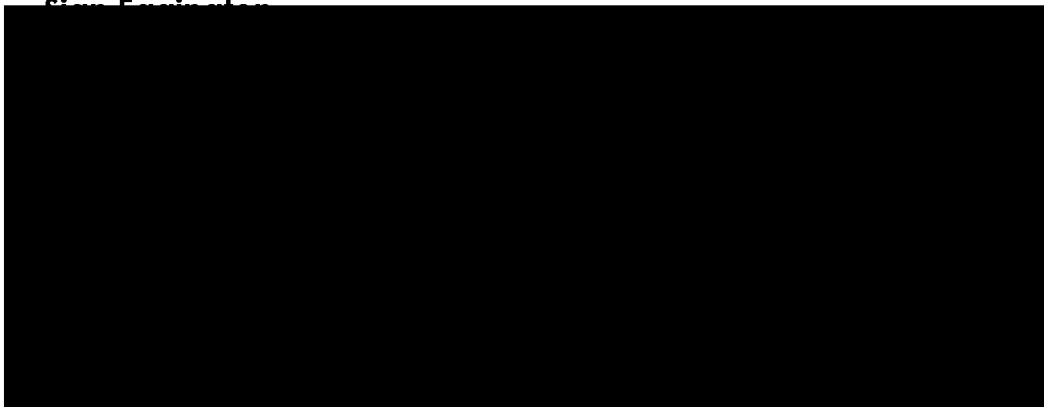

Following on from our telephone call I believe the description to be 'Single storey rear extension, porch to front and addition of a first floor for habitable use with alterations to fenestration and demolition of existing ...(unknown room)' Please confirm you agree and with your permission I can amend the form for you.

Kindest regards

Sian
