

4. Landscape

The landscaping within the plot will be improved. The boundary will remain as is apart from the changes to the entranceways. The front garden will look like a landscaped front garden with paving and grass. The driveway will be in fake lawn to add to the feeling of a green and landscaped garden. To the Rear we will add a large terraced area and a large lawn area with a swimming pool in the centre.

5. Uses

The property will remain a single-family dwelling.

6. Access

Spindrift is in a private estate that will be consulted on the slight change in the position of the drive and pedestrian access. The entrance wall will be lowered and rendered and painted white.
