Mr. Pumphrey,

The amended drawings were acceptable.

Thank you,

Andrew Wood

Dear Mr. Wood,

Following our meeting on 23rd March I sent you a revised layout on 26th March which incorporated the elevational changes we had agreed.

I haven't heard from you regarding this and I am slightly concerned in case the attachments prevented the email getting through to you?

My next step is to seek approval from the Kingston Gorse board, but obviously it would help my cause if you were able to confirm that you would support the revised design when we make the formal submission.

I look forward to hearing from you and if there is any further information that you need please let me know.

Regards

Trevor Pumphrey

Dear Mr. Wood

Re: pre application advice, Sanderlings, Kingston Gorse. Your ref. PAA/108/17/

Further to our meeting on Friday 23rd March, please find the attached/revised plans which my architect has modified to incorporate the amended roofline/ridge we agreed. He has not yet fully finalised the dormer positioning or internal layout, but I assume that is not too important to you at this stage.

Hopefully these external plans accurately reflect the changes discussed and, assuming they do, I would appreciate your confirmation in order that I can move forward and start the approval process from the Kingston Gorse board of directors. I appreciate your help with this and please do not hesitate in contacting me if I can be of assistance.

Regards

Trevor
