Anita

I will drop some samples of zinc and the type of reconstituted stone colour we are looking to use, at your office on Monday. However as you can understand there are many variations on stone and we would provide exact samples before construction. However happy to agree the sample now if that was required for approval and remove the condition which is sometimes helpful.

For your information we proposed similar materials for the approved Spring Tides application K/11/16/PL (materials drawing attached). Can you inform me if Spring Tides application K/40/18/PL submitted materials prior to its committee meeting ?

Regards
Haydn

Dear Haydn,
Members have requested further details of the proposed materials. Can you let me have samples and photos of the same materials on other developments, particularly any within the local vicinity. I would appreciate receipt as soon as possible to enable consideration at Committee.

Regards
Anita Gardner
