Dear Sir or Madam

I totally object to this extension application number LU/101/14/PDH as I have a conservatory Which is all glass and my garden faces due East . The application in question is due South and it will cut out all my light and sun from my conservatory which I use every day.

The previous owner asked me if he could replace my fence with a new one this I agreed to and he did .But he put up 6foot panels not 4foot 6inch as I originally had, this cut my light down a considerable amount. This application would put my conservatory and part of my garden totally in the dark.

I do not see why they do not extend into the loft space as every body with these bungalows have done IF THEY NEED THE EXTRA ROOMS.

Yours sincerely

W. C. Hall
