Subject: Appeal against planning ref LU/105/15/PL

Sent from my iPad. We live at 173 Lyminster road our access to our house is in old mead road we own the road from the start of old mead road right up to our garage drive which we have to maintain . The road is used already by cars / vans to gain access to people who live at the bottom of old mead road and traffic going down to what was the nursery . None of these people pay for the up keep of the road which is already damaged by holes . To allow caravans to go up and down to the castle view nursery will damage the road more this would cause more wear and create more holes and damage to a road which is owned by us and other private owners no one pays anything for the use of our road . We appeal to you to not allow the use of storage of caravans please accept this email of our official refusal . Yours sincerely

Mrs S J Carruthers .
