I AM writing this on behalf of my sister who is concerned about the proposed site at the end of old Manor Road. For caravan storage and distribution of caravans at the end of old Manor Road. She is concerned about the volume of traffic using the Road and that there does not seem to be any time limit as to when owners and bring their caravans and pick them up. This is a peaceful and quiet Road and what it to stay that way. I am all so concerned about the wild life and children in the Road and some House owners and Tenants have domestic animals and all so that I can not see any surveyors reports about the site as far as I know that the land proposed is a landfill site and the noise level will be increased. There is enough noise from the traffic going to and from the nurseries.

Yours sincerely

I MS 13 COE am extremely CONCERNED about the plans for a caravan storage and distribution at the end of old Manor Road. There will be a lot more traffic using the Road. and as I live on a end house I am concerned that the cars and caravans will be reversing in to a small space to turn round at the side of my house and also the land next door the property which is seeking Planning Permission is a land filled site and as far as I am aware there has been no survey done and will the person seeking plans will there be caravans broken up and turn in to a dumping site as you may be aware that there is wild life in the area there is a lot of domestic animals and children. and that there is no timescale as to when the caravan owners ~~can~~ pickup and bring back their caravans I am also concerned about the volume of traffic that will be using the Road.

Yours sincerely

To whom it may concern.

I wish to lodge my objection to the Plan to use the land at the bottom of my road for the use of caravans on his property for distribution and storage. The application does not state clearly times the site would be open time etc or how long it will open for business. I noted on the planning application no survey had been undertaken on the condition of the land or should I say LANDFILL SITE, NO survey on the wildlife in the area, the Bats, Owls, Foxes, Badgers etc will be disturbed by the Solar Farm you have given the go ahead! according to the owner he has no wildlife at all on his land I find this very hard to believe!!

The road is in a bad state of repair as it is, the Solar Farm peeps have told Arun planning and residents they are planning for 80 to 90 Trucks to be using this road, so again residents will have even more traffic on the road, increased noise, dirt and dust should you allow this planning application. We the residents are responsible for the repair of the road, are we to keep paying for others to use and profit from their businesses? at our expense!!

I think this application should be refused on the basis that this was thrown together and no survey ~~or~~ or thought was put in and is piggy backing on to the Solar Farm as it's been passed.

I am very worried that my road is becoming a
a busy and dangerous to live in, with children and
pets having to ^{be} extra aware due to the increase
volume of trucks. I moved from a very noisy and
busy area to find peace and quiet!! That a Joke now
and we the residents have to pay mortgages/rents to
live here, no compensation has been paid or offered
to us!!

Yours Sincerely.
