Hello Ros
Thank you very much to yourself and Michael as well for your time.
As promised I provide information on refuse and parking :

Condition 1 LU/244/13/Phase1b & Condition 1 LU/248/13/Phase 1

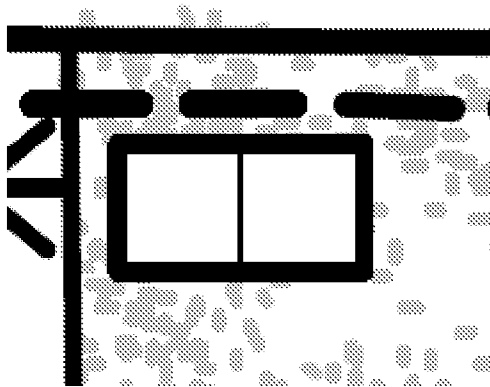

Attached is the AAP details document that details elements of the build of the houses.

Condition 21 LU/355/10 & Condition 23 LU/355/10

Regarding the conditions that require information of the location of refuse and recycling bins (condition 21) and the layout of parking I have attached the site layout plans for the two Barratt Phases and these plans show the location in each garden for the storage of at least two wheelie bins (via the use of the below extract symbol)

I will send in a 2nd email due to the file size the same style of plans but for the Bellway phases.

The blocks of flats have their own separate bin stores that contain 1100Ltr euro bins.

Further emails to follow on the matters that you highlight below.

On the matter of the NEAP that is proposed for the area below the sports pitches, we have overlaid the 30m exclusion on its correnection from the nearest house and there is an enfringment and we will be looking to adjust its position to remove the enfringment but only once we have consulated with yourselves, plans will follow in due course.

Thank you
Kind Regards
