To whoever it may concern

I currently live in Cornfield Close Littlehampton and understand that an application has been made to extend the working hours on the building site on the previous "Daisyfield Campsite"

My understanding is that the application is to extend the working hours to 6am - 10pm. Myself and my husband would like to object to this on the grounds of:

1. Additional noise - this is machinery noise and general site noise. The workforce or not particularly quiet either. There are families living along Cornfield Close who have very young children, ranging from pre-school to secondary school age - some of who will be returning to school one June 1st. Has there been any consideration for these parents trying to get their children to sleep in the evening and being woken up too early ?
2. Additional dust - this is having an impact on the paintwork on our cars, we're at home due to Covid-19, our washing, our windows, inside our house - the dust is extensive.
3. Earlier arrival and later departure of vehicles from the site and surrounding areas.

Having been at home during the lockdown, we have been able to observe the workforce work THROUGHOUT this time and that this site has NOT been closed. What has happened is they have been finishing around 3.30-4pm, not working Saturdays or Bank Holidays ? I would have thought that this might have been option opposed to taking advantage of the current Covid-19 situation and applying for extended working hours.

The way they have managed the site and although generally considerate, it is quite obvious that they are NOT adhering to the social distancing rules either, I appreciate that working on a construction site it is not easy to adhere to the rules.

I hope that the above points will be taken into consideration and I would appreciate response to this email.

Many thanks

Mrs Anita Williams
