Average Rating

- With its reverse apex and clock-tower-style peak and substantial size the Virginia acts as an elegant addition to the home and garden.
- The 34mm cladding has been kiln-dried and shaped into tongue and groove joinery, providing a sturdy and durable construction.
- Its three glazed windows and double doors are designed to retain heat in the winter and release heat in the summer, whilst providing maximum light all year round.
- A mortise lock and fully fastening windows are provided for security.

Our **Log Cabin Features** explained

all of **Our Log Cabins Come With...**

Log Timber Thickness

A log thickness that has been chosen dependent on the size of the building to ensure strength and durability.

Rather than giving you numerous options when selecting your log cabin we have selected the log thickness for you.

Premium Heavy Duty Floor

A premium heavy duty floor as standard suitable for all uses. Built with either a thick 19mm or 28mm tongue and groove timber (please refer to the icon next product image), perfect for offices, summerhouses, gyms and games rooms. A floor of this quality will also provide good insulation.

Most other log cabins come with only bearers or 11mm tongue and groove which we

★★★★☆
paul jeffries

Regarding: 4 x 3m Virginia 34mm Log Cabin

I will say we do not use ours as an office like it says on you website. Ours is a multigym and is perfect for it.

★★★★★
edward cash

Regarding: 4 x 3m Virginia 34mm Log Cabin

class put it up in 5 hours on my own looks great if i can do it anyone can and i worked the night before came home had 2 hours sleep started at 12 finished by 5 £2500 well worth it
