Dear Mr Neil Crowther,

I own 1 York Road Littlehampton, on Saturday morning I saw the planning permission for the above LU/125/19/PL on the lamp post outside my house.

I do strongly object to this property going ahead as it just opposite my property and will be directly opposite our bedroom windows so we will have no privacy and that's part of the reason we bought the property 12 years ago when my husband retired from the Army after a full military service.

Now onto the problem of a seven bedroom bedsit with only parking for three cars in an area that is already a car parking lottery for the residence here it is hardly adequate.

Then there is the joy of the knowledge that with these types of property comes a lot of problem tenants like the two other properties that reside in Arundel Road where the police and other emergency services get called frequently.

Then finally after months and months of constant disruption noise and dirt of this monstrosity being built. I then have the added bonus of my property going down in value because of this.

I can see that this is in no way beneficial to any of the residence in York Road other than the greed and profiteering of the developers who are pushing to go ahead and build this.

Yours sincerely

A black rectangular box redacting the signature of Mrs S A Purvis.
