To: Anita Gardner
Subject: RE: LU/62/17/DOC - Discharge of surface water drainage /railings conditions

Dear Anita,

Thank you for confirming that, could you email a copy of the discharge letter once you have had a chance to write it?

Further to our recent correspondence regarding condition 4 (surface water drainage) of the above permission I write to confirm I am happy for this condition to be added to the recently submitted DOC application ref LU/127/17/DOC and that it can be withdrawn from DOC application ref LU/62/17/DOC. If you need anything further please let me know.

Kind Regards

Ben

Subject: RE: LU/62/17/DOC - Discharge of surface water drainage /railings conditions

Dear Ben,

The interim Conservation Officer will let me have her comments by tomorrow lunchtime. The new DOC is likely to be checked tomorrow afternoon so her response will be received prior to registration. As discussed, I will let you know if she raises any concerns so that the condition can either be added to the new application or determined in its current form.

Regards

Anita Gardner

Subject: RE: LU/62/17/DOC - Discharge of surface water drainage condition

Dear Ben,

I have checked the reference you have given me. The DOC application is awaiting checking so I can request that the additional condition is added to it if you can confirm your agreement. I will amend the form accordingly. The application will not be advertised in a manner requiring a 'no decision before date'. The conditions can be determined at any time after registration provided the details are acceptable following receipt of any consultation responses if necessary. There should therefore be no additional delay to determination of the drainage condition. The application will not be registered before tomorrow afternoon so I would appreciate confirmation as to how you wish to proceed by then. I will be out of the office for the rest of the day and tomorrow morning, but will check my e-mails when I return.

Regards
Anita

Sent: 18 April 2017 15:01
To: Anita Gardner
Subject: RE: LU/62/17/DOC - Discharge of surface water drainage condition

Dear Anita,

Please find attached the acknowledgement letter which we received on the 13th April relating to the second DOC application which was submitted through the planning portal on 6th April in addition to this I sent a cover letter including the fee on 10th April which should be with you by now. I have also attached this for your reference. I am reluctant to agree to amend the second DOC application to include the drainage as the percolation testing is to take place 5 days from the deadline of the DOC application and to reapply could take up to 8 weeks. This would result in a 6 weeks delay in discharging this condition when if we take a more pragmatic approach and continue with this DOC application would save a considerable amount of time (6 weeks). I am more than happy to agree an extension to the present DOC application to allow you time to assess the results of the percolation tests but am reluctant to add the drainage condition to the second DOC application (LU/127/17/DOC) due to the additional length of time it would take to determine.

Subject: RE: LU/62/17/DOC - Discharge of surface water drainage condition

Dear Ben,

I am reluctant to agree to an extension of time when as far as I am aware there is another application awaiting registration which could be amended to include the drainage condition without requiring an additional fee. I haven't received another DOC application on the site so I am assuming that the new application submitted via the planning portal, to discharge other conditions is still not registered or am I incorrect?

Anita

To: Anita Gardner
Subject: RE: LU/62/17/DOC - Discharge of surface water drainage condition

Dear Anita,

Thank you for your email regarding the DOC application. In light of the date of the percolation testing can we agree to extend the DOC application to allow you time to assess the findings? This seems a much more logical approach than refusing the current DOC and submitting a new application along with an additional fee. I look forward to hearing from you.

Kind Regards

Ben

To: Ben Hatt
Subject: RE: LU/62/17/DOC - Discharge of surface water drainage condition

Dear Ben,

The above application expires on 21-04-2017, prior to the percolation testing taking place, therefore I would suggest that the drainage condition is included in the new DOC application submitted via the planning portal. It is my intention to refuse the above DOC application by the end of this week on the basis of the information currently submitted.

Hi Anita,

Further to your email below the Percolation Testing is to take place on 26th April and once I have the results I will forward them onto to you asap. In addition to this we have submitted an additional discharge of conditions application on the planning portal (ref PP-05975659) for conditions 3,8,9, and 12. The cheque for the fee of £97 is in the post and will be with you shortly. If you need any further information or have any questions please let me know.
