Description

Please describe details of the proposed development or works including any change of use

We're asking permission to introduce a crossover (dropped kerb) outside Wick Hall. We currently have a crossover at one side of the car park, but this creates a dangerous situation as cars have to enter and exit the narrow car park through the same point. We already have an inward-facing gate at the other end of the car park and if we could introduce a crossover it would create a much safer car park, which is regularly used by numerous people within the community. It would also mean that cars exiting the car park are doing so further from the closest junction, which is about 25m south along the road, past the St Barnabas Charity shop.

It won't increase the amount of traffic moving out of the car park, but it will improve safety and on the pavement as well since we will be able to more clearly sign one gate as an entry point and one as an exit point.
