Noted. Perhaps another team member or Mt Crowther can attend to it then? Surely the Council is not going to stop dealing with planning matters in Littlehampton whilst you and Anita are off sunning yourselves?

The applicant/appellant has a statutory right to expect that ADC attends to his application/appeal in accordance with sensible case management procedures and a reasonable timescale and if ADC is unable to meet its statutory responsibilities delegated to it by Government due to a lack of resources maybe it should advise the Government and applicants that is the case so that they can then choose to make their applications direct to the government?

However in the meantime shoving both these files onto a shelf marked "all too difficult" and leaving them to gather dust is not an answer.

I note you are busy and have decided upon other priorities. I am also busy and certainly have other priorities so having to deal with this is a problem for me too. However, that's the job I have chosen to do and be paid for so I don't bother wasting my time whinging I just get on with discharging my responsibilities to my employer!

Juan

Please place this e mail exchange and the attachment on your file references as identified for ease of future reference.

I have copied this e mail exchange to PINS for their appeal Inspectors file for ease of future reference at final comments stage.

You may like to read paragraphs 1.2, 1.3, 1.6, 1.7, 1.8, 1.10, 2.5, 2.6, 3.5 and Annexe J in the attached as your replies to my e mails to date suggest that you are oblivious to same.

I am receiving "not read" replies to my e mails from the Group Head of Planning Mr Crowther but am continuing to copy him in the reasonable hope that he (as your manager) will take an interest in what you are doing and saying in his name in case of future complaint.

I note that your e mail states that the determination period for LU/210/19 PL is now 134 weeks. I assume you mean 13 weeks?

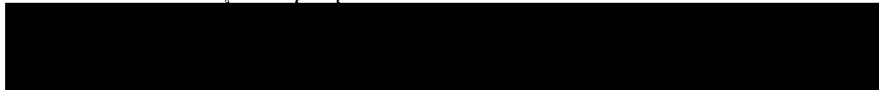

Thank you for confirming that Anita Gardner is preparing the Councils Appeal Statement. According to her out of office e mail reply she is on holiday and does not return to the office until 31/8/19 (I think she means 31/8/19?) so has she already written it? If so why not submit it now and speed things up. The 21/8/19 is a deadline and there is no reason why ADC needs to wait until that deadline.

However I look forward to receiving the Council's statement from PINS following the deadline date of 21st August 2019 and will reflect/address same in the Appellants Final comments as already stated. The Appellant reserves the right to add to his costs application already made if necessary.

Finally please note for future reference that the applicant formally requests that his application under council ref LU/210/19 PL is determined at the earliest possible date by Arun District Council and as we understand matters the council's options are either to approve the application subject to conditions or refuse the application. The applicant is aware that the relevant part of the council's constitution states that the application falls to be determined by the Council's DCC unless the officers recommendation TO APPROVE OR REFUSE is in accordance with the written representation from the LTC so the application was submitted in order that it could be determined by the DCC at its meeting on 4 September 2019 and the applicant is still awaiting your explanation as to why this is not possible.

Thank you

Paul

I have said all I can to explain that this was registered as a major application and therefore a 134 week determination date. I have copied the technical administration manager in to see if she has anything further to add. As I've already said this application is the same as its predecessor and will be determined in a similar way. You will have to wait until the appeal statements are exchanged to find out the reasons why.

In so far as the appeal statement is concerned it will be prepared by Anita.

Subject: RE: LU/210/19/PL

Juan

You are right to say that this "*application is no different to that it proceeds*". Regrettably the officers obstructive approach to its determination is also no different.

The previous application LU/133/19/PL was validated as a minor application with an 8 week determination period and the applicants appeal against the Council's failure to determine the application within that period was validated and accepted by PINS and was allowed to proceed on that basis. Moreover PINS has been made aware of the fact that this resubmission has been validated as a major application with a 13 week determination period but has confirmed that the extant appeal is none the less valid.

Major development is defined in the Council's Local validation List updated on 7/6/19 as being *10+ dwellings/ over half a hectare/ building(s) exceeds 1000m²*.

Article 2 of The Town and Country Planning (Development Management Procedure) (England) Order 2015 defines major development as including (c) the provision of dwellinghouses where— (i) the number of dwellinghouses to be provided is 10 or more; or (ii) the development is to be carried out on a site having an area of 0.5 hectares or more and it is not known whether the development falls within sub-paragraph (c)(i); (d) the provision of a building or buildings where the floor space to be created by the development is 1,000 square metres or more;

This application provides 9 dwellings (net), the site area is 0.48 hectares and the floor space to be created does not exceed 1,000 sq metres so the statutory determination period is 8 weeks from the date of validation and not 13 weeks as incorrectly/unlawfully stated by ADC from the outset.

Therefore please correct your records so that they correctly record the 8 week determination period which by my calculation expires on 28 August 2019 or not as you see fit as I care not because PINS will validate an appeal lodged against your councils failure to determine the application within the statutory period after that date in any case and the applicant will not be awaiting your Council's refusal of his application at some unspecified date in the future when and if you can be bothered to get around to it.

In the meantime I can only note for the file your intentions and your Councils abject and systemic failure to work with the applicant in a positive and proactive manner based on seeking solutions to problems arising in relation to dealing with this planning application and your resulting inability to be able to include the statement required under Article 35 of The Town and Country Planning (Development Management Procedure) (England) Order 2015 (other than by lying) on any decision notice issued in this case. Remind me why are you unable to approve this application conditionally in accordance with the development plan and all relevant material considerations?

Frankly I no longer care but out of duty to the applicant and more in hope than expectation I will have one more go at getting you to address/answer the questions I put rather than avoiding them.

Please can you provide the applicant with a full and proper explanation as to why his application cannot be determined within the statutory 8 week determination period which expires on 28 August 2019 or by the DCC at its meeting on 4 September.

Please can you also advise who is writing your statement of case regarding the outstanding appeal due with PINS on 21 August 2019 by return..

Whilst I do not care (I live outside of the your district and will be paid anyway) you should care as your wilful, ill-informed and obstructive approach amounts to maladministration and also lays your employer ADC and the public they represent wide open to a successful application for a costs award against them as part of any appeal process so perhaps you can remember that when reporting the outcome of this sorry affair to your DCC member in your usual unhelpful appeal reports.

The applicant has now been waiting 4 months and counting for your council to determine his application for much needed housing on a site within a defined built up residential area with an extant outline planning permission for 9 dwellings net. Ridiculous.

Paul

As this application is no different to that it proceeds its likely to be refused. You will be notified of the reasons for refusal in the decision notice which will be issued before its determination date of 2 October. You are already aware that the registration team registered this as a major application with a 13 week determination period.

Juan

Please note that I will refer to this correspondence in the ongoing appeal under PINS ref: APP/C3810/W/19/3232378 Anita Gardner has advised in her out of office reply that she does not return to the office until 37/8/19 (sic) Therefore as the relevant Team Leader please can you advise the intended decision (refuse or approve conditionally) and provide the applicant with a full and proper explanation as to why his application cannot be determined within the statutory 8 week determination period which expires on 28 August 2019 or by the DCC at its meeting on 4 September.

Please can you also advise who is writing your statement of case regarding the outstanding appeal due with PINS on 21 August 2019 by return..

Please also note that if the application is not determined by the expiry of the 8 week determination period on 28 August 2019 the Applicant will give consideration to a further appeal against non-determination with an application for an award of costs against ADC.

Thank you

Subject: LU/210/19/PL

Dear Anita

This application was submitted on 3/7/19 and does not relate to major development so the statutory determination period expires on 29 August 2019 (8 weeks) and not 2/10/19 (13 weeks) as stated in the Council's validation letter. In this regard you are aware that the application is a resubmission of LU/133/19 PL and that the appeal against the council's failure to determine that application within the statutory determination period for minor development (8 weeks) was validated by PINS.

The statutory consultation period expires on 15 August 2019 and the applicant hereby invites you to determine his application as submitted and confirms that he does not agree to any pre commencement conditions that maybe suggested by you or any consultee as none are necessary to make the development acceptable in planning terms.

The applicant understands that you are able to refuse the application at any time after 15 August 2019 under delegated powers but in view of the LTC Objection if you are to recommend Conditional approval the application needs to be referred to Committee.

Please can you confirm the date on which the Council intends to make a decision on this application.

Thanks
