

Please see the parking for Plot 1 and Plot 2. X marks the spot for each side.

In regards to the fire place – please see below picture for reference. Rachel would like to remove the current style of the fire place (the tiled look) and make it more like the picture below which was its original look and provides more space but still holds the structure for the larder.

Rachel is happy for the chimney breast to stay in tact in the first floor bathroom and will place the bath just in front of this.. please see how the bathroom will look with this amendment.
