Dear Sir

RE: PLANNING PROPOSAL FOR NEW SKATEBOARD PARK WITH FLOODLIGHTS
IN SEA LANE, LITTLEHAMPTON
REF: LU/136/19/PL

In response to the above planning application for an extension to the skateboard park with floodlights we wish to make known to you our concerns.

How high do you intend the floodlights to be and will there be a switch off time?

Our home is situated a very short distance away and we are in direct line of the park in Fairway and we already suffer a lot of noise that the skaters make off the ramps. The only respite we get is when it gets dark or bad weather so we definitely DO NOT want this to go on into the hours of darkness especially as it is in direct line with our bedrooms and it would be intrusive to our home.

We cannot see why it is necessary to have floodlights and for what is the reason?
WE THEREFORE OBJECT TO THE PLANNING APPLICATION!!

A reply to this objection would be very much appreciated.

Yours faithfully

MR AND MRS SWAIN
