Hi Nina,

Further to your comments dated 14-06-2019 this additional lighting information is being added to the application. Can you let me know how you would suggest the wording of the condition relating to details should be amended? Re these details satisfactory?

Thanks
Anita

Hi Ros,
I have started looking through the application. There are no details of the flood lights as far as I can see. Do you have any?

The description states there are 4 in number. How high are they and where are they proposed to be sited? I can condition final details, but it would be helpful to have a bit more information at this stage.

Regards
Anita
