Thank you for your letter from Mr. Neil Crowther.

I note that specifications of the lighting scheme and drawings and photograph of typical 1.8 metre x2.4metre wooden garden shed have been submitted to you. The supplier, name and specification has been provided for lighting scheme.

I begin to think you are prevaricating.

However, as we have already informed you, we have contacted the Environment Agency re discharge into the water course and received positive response. The bio-pure septic tank has permitted discharge as you will have noted from the specifications and is approved by your Building Control who hold drawings appropriate.

We would rather not waste time going to Appeal, but you would seem to leave us little option.

Yours sincerely

Michael Smith
