Hi Rachel,

I have checked with Neil he feels that it is best to await determination until we have plans detailing precisely what is being proposed. On that basis the application can await receipt of the additional information requested, with a view to it being taken to September DC Committee on 02-09-2020. Can you therefore agree to an extension of time on the application until 04-09-2020 by return? I am away at the beginning of August so would appreciate receipt of the information by the end of the month if possible.

Regards

Anita

Hi Karen,
Sorry to chase, but can you let me have these details ASAP? Are they likely to be received today? The plans/photos are the priority. As soon as the application is paced on our agenda Members will start looking at the details so it would be good to have them scanned and available by tomorrow.
Thanks
Anita

Dear Karen,
Further to the above application please can you confirm/provide the following details?

- Is the sculpture is going to be illuminated? There is no mention of it. Bearing in mind where it is and what it supposed to be doing I would suggest this should be considered.
- Is it intended that the plinth would be painted? It would be much better if it were painted to fit in with the grass verge in which it sits. A big grey slab in this setting would be prominent. Does the slab need to be so large?
- The plan of the structure is completely different to the photo image which doesn't seem a true representation. Can you provide clearly labelled scaled elevations for each side of the sculpture and maybe other photo montages from other directions further away from the base of the structure.

I am intending to take the application to the next available DC Committee at the end of the month and would therefore appreciate receipt of these additional details within the next 10 days.

Regards
Anita
