

Apple Tree Cottage Bn17 6JX

The tree in question is a mature Holm Oak in good health and provides good amenity value to the surrounding area. The proposed work would be to crown reduce the tree by 2 metres to reshape the unbalanced tree and encourage a better form as part of the 5 year maintenance of the tree. The second tree is a Robinia in poor health located in close proximity to the property. The trees has been poorly pruned over the years and provides little amenity value. The proposed work would be to remove the tree and replant with the same species. All work will be completed in accordance of British Standards bs3998 / 2010

Robinia
