This is the WSCC County Highways (CHA) response to the above planning application for approval of reserved matters following LU/63/11 & LU/234/16/RES for construction of Fitzalan Link Road between A259 Worthing Road & the East Street/Fitzalan Roundabout. This application affects a Public Right of Way.

From scrutiny of the submitted drawings, it is the CHA's understanding the the application seeks approval of the latest drawings as now submitted as part of this planning application.

Having discussed the matter with the County's S38/278 engineers currently processing the S38/278 Agreement for the Fitzalan Link Road, it has been confirmed that the plans submitted are the same as those being considered as part of the S38/278 process and are, therefore, acceptable to the CHA.

Please note that comments contained in this response do not respond to any drainage (surface water drainage) requirements. If comments are sought for this, they should be directed to the surface water drainage engineers.

Thank you.
