Date: Monday, 22 August 2016, 15:52

Dear Mr Karboub,

I am unsure of the specific enquiry of your email – However, I can provide the following comments in relation to the previous communications regarding the fascias/soffits.

Having examined the application and discussed the matter with my team leader we are in agreement that the replacement of the existing timber soffits and fascia's can be carried out and would be permitted development with no need for a further application.

The implementation of the cladding is permitted but it is required that details are submitted to the Council as a Discharge of Condition application prior to the works being carried out.

If you have any further questions please do not hesitate to contact me.

Yours Sincerely,

David Easton
