Dear Mr Smith,

Re: Reference LU/158/08

After having visited the Civic Centre today to view our files and enquire as to why I had not received any written communication on our planning application I now realise that I have inadvertently put our builder down as the Agent on the planning application.

I would be most grateful if you could send all further communication regarding our application and future decision directly to myself at the above address rather than to Alan Akmenkalns of A+ Construction as I did not realise that by putting his details on the form this would stop all communication coming to myself.

Thank you very much for your assistance and if there are any problems with this I would be grateful if you could let me know.

Yours sincerely,

A black rectangular box redacting the signature of Mrs Karla Merrifield.

Mrs Karla Merrifield.
