Comment from Greenspace

Public Open Space

The Council's SPG guidelines apply to developments of houses and are based broadly upon the National Playing Fields Association's (NPFA) "Six Acre Standard". This requires that 2.4 hectares of open space (or six acres) are provided for every 1,000 people ie 24 square metres of open space per person. Under superseded Fields in Trust guidelines (FIT) this requires that 3.2 hectares of open space are provided for every 1,000 people ie 32 square metres of open space per person. It is good to see that consideration has been given to this requirement and that open space both in landscape buffer and open space has been provided within the proposals. With these proposals indicating 10no dwellings the provision of LAP (non-equipped) should be provided within the POS areas.

Landscaping

We note there is a requirement for any scheme, in accordance with policy to be of High Quality Design, this development should not compromise this requirement. The emerging landscape design aims should be:

- To design and implement a scheme that reflects and incorporates elements of its surroundings and enhances the atmosphere of local distinctiveness.
- To create a visually pleasing and interesting landscape for owners, employees and visitors to the development.
- To enhance the landscape quality of the site when viewed from the surrounding area.
- To provide a planting scheme that includes native species to blend with the surrounding location, enhance biodiversity and create enhanced wildlife corridor opportunity.
- To provide a sense of flow and cohesion between the different elements of the landscape, buildings, open areas and surrounding environment.

The provision of landscaping for the development must be conditioned with any permission. Some indicative landscaping particularly trees detailed have been illustrated with the site layout proposals. A full landscape scheme should be submitted for approval, detailing species choice, position, densities and size at time of planting. This should be plotted in plan and list form and in relation to the trees and vegetation to be retained in the locale, so that a clear picture of the proposals can be seen. These details are required to assure the adjacent land setting is maintained, the setting is uncompromised and the proposals are appropriate to its setting also its proximity in relation to neighbouring properties.

Arboriculture

A tree survey relating to existing trees should be undertaken. Tree protection fencing requirements identified and tree protection plans submitted which would need to be conditioned with any permission.

Any significant existing trees clearly those evident along the boundary and the dividing copse, must be protected during the works if they are identified to provide good visual amenity in addition to their biodiversity importance. Any trees that have the potential for a long life expectancy, with potential to become a prominent feature within the landscape and are worthy of protection, with adequate fencing according to the BS 5837 (2012) Provision for fencing according to each of the trees' correct and calculated root protection area must be erected prior to the commencement of any development activities.

Any trees or vegetation that fall within the proposed or periphery of the development, may provide significant aesthetic impact to the location. Any trees in particular along the boundaries, which adjoin neighbouring land could provide potential valuable screening and should be retained particularly those adjoining the settlement boundary. Any considered tree removal from this site should be agreed with Arun District Councils Tree Officer. Root protection Areas (RPA) should extend into the development site and to those in neighbouring land. Before construction, a tree protection scheme must be in place for any retained trees including trees whose root protection areas fall within the construction zone from neighbouring land. Any agreed removed trees should be mitigated for allowing for inclusion of native species for biodiversity purposes and fitting to the semi-rural setting.

I would recommend no objection to the proposals in relation to landscaping.

NOTIFICATION FROM ARUN DISTRICT COUNCIL

Town & Country Planning Act 1990 (as amended)

Town and Country Planning (Development Management Procedure)

(England) Order 2015

Planning Permission

APPLICATION LU/162/17/PL

NO:

Registered: 9th June

2017

Site Address: Land North & West of Toddington Farm Cottages

Toddington Lane Wick Littlehampton BN17 7PP

Grid Reference: 503392 103848

Description of Works: Demolition of existing building, erection of 10 residential dwellings (Use Class C3) with associated open space, landscaping, parking, and access. Departure from the Development Plan.

The Council have received the above application. I shall be pleased to receive any observations you may wish to make.

[Click here to view the application details](#)

Should you have any comments to make, these should be sent by replying to this email by 13-JUL-17.

You can also monitor the progress of this application through the Council web site:

www.arun.gov.uk/planning

Please be aware that any comments you may make will be available on our website so please do not insert personal details or signatures on your reply.

In the absence of a reply within the period stated, I shall assume that you have no observations to make.

The application will be determined having regard to the development plan policies (if any are relevant) and other material considerations. The development plan can be accessed via the website as can the leaflet which deals with material planning considerations.

Should the application go to appeal the Planning Inspectorate will publish any comments made to the Council on their website:

www.planningportal.gov.uk/planning/appeals/ but they will protect personal details.

The officer dealing with this application is Andrew Wood who can be contacted on telephone number 01903 737768.

Regards
Planning Officer
