Refusal

TAD contribution: £N/A

This application has been dealt with in accordance with the Development Control Scheme protocol in respect of proposals for the development of single residential units or extensions to single units accessed from roads that do not form part of the Strategic Road Network (SRN). As such the comments provided by Local Development should be considered to be advice only, with respect to this planning application.

The proposal is for the erection of one internally illuminated fascia sign. This proposal has been considered using the information and plans submitted with this application, in conjunction with other available WSCC map information. A site visit can be arranged on request.

The proposed sign does not raise any significant highway safety concerns. The fascia sign is not thought to be in such a position as to restrict visibility, cause a hazard to pedestrians or distract drivers. As a fascia sign, the sign will not be on the publicly maintained highway.

Laura Pettit
