Dear Ms Korpak,

Your application report is being worked on by a colleague. It has come to light that the western and southern elevations have been annotated with a scale of 1:100 which should be 1:50. Please can you let me have substitute plans with the correct scale? In the meantime I would hope that the report will be completed shortly and passed

through for sign off within the next few days. I would therefore appreciate your agreement to a further extension of time until the end of the week 04-10-2019 to allow for completion of the report, sign off and processing of amended plans.

Regards

Anita Gardner

Dear Ms Korpak,

I acknowledge receipt of your e-mail. I apologise that determination of your application is being delayed. Unfortunately I have a significant caseload and most of my applications have exceeded their target dates already. Your application is relatively new. I am trying to deal with my caseload in order of urgency, prioritising the oldest applications first and I am unlikely to be able to put time to working on your application for at least another 2 weeks.

I have had a discussion with the Conservation officer and it is likely that this latest application will be supported by officers. If I require any further information when I come to write my report I will come back to you then. In the meantime please can you agree a further extension of time until 30-09-2019.

Regards

Anita Gardner
