Attachments: 118-120 Wick Street Littlehampton Bin and Bike Stores A2.pdf; 118-120 Wick Street Hobash 02 PLANNING SUMMARY.pdf; 118-120 Wick Street Hobash 01 DRAINAGE STATEMENT.pdf; 118-120 Wick Street Hobash New Houses Validation Checklist.pdf; 118-120 Wick Street Hobash New Houses BIODIVERSITY.pdf

Follow Up Flag: Follow up
Flag Status: Flagged

Further to submission of this application through the Planig Portal, I am now attaching additional documentation as listed below

118-120 Wick Street Littlehampton Bin and Bike Stores A2.pdf
118-120 Wick Street Hobash New Houses Validation Checklist.pdf
118-120 Wick Street Hobash New Houses BIODIVERSITY.pdf
118-120 Wick Street Hobash 02 PLANNING SUMMARY.pdf
118-120 Wick Street Hobash 01 DRAINAGE STATEMENT.pdf

Please will you append these documents to the application.

There have been a number of occasions in the past when documents I have uploaded to the Planning Portal have not been received or visible in your office (although they were included in the compressed zip file from the PP). So for certainty, the seven documents uploaded to the Planning Portal were as follows, if you aren't able to find any of them, please contact me.

118-120 Wick Street Littlehampton SITE PLANS dwg03 A2.pdf •
118-120 Wick Street Proposed Group Elevations 04 A2.pdf •
118-120 Wick Street Site as Existing A2.pdf •
118-120 Wick Proposed House A A2.pdf •
118-120 Wick Proposed House B A2.pdf •
118-120 Wick Proposed Houses C D and E A2.pdf •
118-120 Wick Street Existing Police Houses A2.pdf

Finally, on reviewing the application I note that two new pedestrian access points to the pavement of Wick Street are involved, each one to serve one dwelling only. Wick Street is a classified highway. I ticked a box on the Application to say no new pedestrian access to a highway is involved, in view of this mistake, please will you alter the application to indicate that the new pedestrian access to the highway is included in the proposals.

Thank you,

--
