10.7.19.

MR ZAK DENTON

RECEIVED

Dear Sir.

of Esher Drive, a haven of 2 bedroom bungalows, occupied by, in the main elderly & often frail pensioners. I have been told by my neighbours of a request for planning permission at No 14 for a 5 bedroom house!! I don't believe for one minute that this could be successful as a large Gymnasium has already been built in the back garden, but along with various residents I am writing to object to what in the long term, could cause problems

P.T.O!

where now exist.

I wonder if you have been notified of the young families' plans for such a huge amount of building work, on a small bungalow which has already been extended upwards.

As requested by their immediate neighbours I submit this request for careful consideration to be given to all the other residents of this lovely, popular road, which could be given the green light to turn it into a building site in the future. Sorry to be so long-winded!!

Yours sincerely,
