Dear Sir

I am writing with regard to.

Planning Application LV/184/19/HH.

I was asked by the Lady that lives at number sixteen, Essex Drive, Pax advice on the planning as it is within a few millimeters of the southern boundary of the southern end of her property. Her for restricting sunlight to her rear garden and also preventing and maintenance of the building in the future without getting access to her property.

The building was built without any planning application and I feel sure. It would have been refused for the reasons I have mentioned.

Yours sincerely
