DEAR SIR.

IT IS A GREAT SHAME

THE OAK TREE IS BEING CUT
DOWN IN SELBOURNE ROAD. I.

HAVE NOTICED MANY TREES BEING CUT
DOWN LATELY. IS IT GOING

TO BE USED FOR DEVELOPMENT²

THEIR¹ SENT MUCH ROOM. WE

SHOULD PRESERVE OUR TREES,

THEY ARE VERY IMPORTANT. ALL THE
BIRDS THAT LIVE IN THE OAK TREE
WILL WONDER WHAT HAS HAPPENED IF
THE OAK TREE IS CUT DOWN. IT NEEDS

~~BE~~ PRUNING. ~~AM~~ ARE THERE GOING TO
BE MORE FLATS² I OBJECT TO IT.

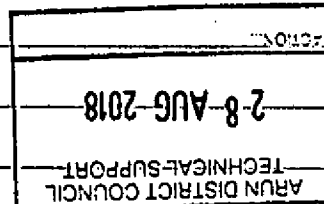

YOURS SINCERELY

Dear Sirs

Re: LU/186/18/TC

I am writing as I have been unsuccessful in making an application on line due to inadequacies on your web site.

We strongly to object to the complete removal of a mature Oak Tree see reference as the view from my property will be impaired and natural habitat will be lost.

We appreciate the tree is not in perfect health but believe with suitable Tree Surgery the tree can be saved.

Yours faithfully

(By hand)

Sir/Madam,

Re: Planning Application LU/186/18/TC

I write to object to the above Planning Application to fell the Oak Tree in Selborne Road (rear of 15A, Western Road).

I have lived in Selborne Road since early 1983 and this old oak tree has always been a significant feature of the road. While I am aware of the liability and safety issues of trees overhanging public land, I can only remember tree surgery performed once on this tree many, many years ago. Either before the 1987 gales, or just after, so it was a long time ago. It has a strange shape now as branches have grown around the power cables which recently underwent upgrading to a single fully insulated strand thereby improving safety in that respect.

It is undoubtedly well over one hundred years old and being on the boundary of two adjacent Western Road properties, I can only surmise that it was probably planted at the time of Western Road construction in the late 18th or early 19th centuries.

I am sure there is no doubt that large mature hardwood deciduous trees enhance our environment, so I would prefer to see the tree professionally trimmed back and lopped in the first instance in order to see how its health improves; I am sure there would be improvement if merely the dead branch ends were removed and the parasitic ivy on the trunk was cleared. Then at a later date, it may well be re-considered for felling if it were to be deemed to be totally unsafe from ground level upwards.

I kindly request that initial planning permission for felling is refused and tree surgery is pursued in the first instance by way of remedial work with a further report at a later stage.

Yours faithfully,

Paul Graydon

Dear Sirs,

I would like to add my protest, and to protest the
last iconic Oak Tree in Selbourne Rd, Littlehampton.
So many of our trees are being felled, that we
will all be left with so few left to be a legacy
for our Grandchildren and great grandchildren.
The world and us, need trees to keep the planet
alive and healthy. How can so many people be so
very selfish?

Yours sincerely

Bessie A Bond.
