Planning Application LU/186/18/TC

Dear Sirs,

I wish to object to the above numbered planning application on the following grounds:

- i) this majestic tree is a beautiful landmark in this neighbourhood;
- ii) this oak tree is alive and flourishing and only requires attention to a small number of dead branches;
- iii) the tree is many years old and provides a home to birds and small animals;
- iv) the tree is entirely appropriate to its surroundings in this older, interesting part of Littlehampton;
- v) there are no other beautiful "feature" trees in this section of Selborne Road;

PTO

v1) we need trees for health and environmental reasons and one such as this example cannot easily be replaced. I live on the edge of a conservation area and do not wish to see the wanton destruction of my environment. Please think again.

Yours faithfully
