Subject: Planning application Ref:- LU/186/18/TC

I am unable to understand how difficult it is to E-mail your good selves...

The above application refers to the removal of the only tree remaining in Selborne Road in Littlehampton.

I must object in the strongest manner to the proposed removal of this tree.

Surely, when the initial planning application was presented to the Planning Dept., this possibility should have been considered then, at which time, hopefully, it should have been denied.

Enough of our trees on this planet are being destroyed. We all know by now, just how essential to our existence they are.

I hope you consider this comment of objection in the manner that it is intended. Roger Matthews. 22 Norfolk Road, L-ton..
