Michael, comments are provided in relation to the ecological impacts of the above application.

I am satisfied by the conclusions within the updated Ecological Mitigation and Management Plan undertaken by ECOSA and submitted in June 2021. Should permission be granted for the application, then it should be conditioned that the mitigation and enhancements included within section 4.0 of the report

on Species Mitigation and Management; and section 5.0 Habitat Specific Management, should be implemented in their entirety.

Stephanie
