Heritage Statement

Flat 4, 16 South Terrace, Littlehampton, West Sussex BN17 5NZ

I6 South Terrace forms part of the terrace of houses situated at the east end of the street named South Terrace. This terrace of houses overlooks Norfolk Gardens. These large houses were built in the 19th century; most have now been converted to flats.

The proposed alterations will convert the flat from a one bedroom flat to a two bedroom flat. The flat was formed from an upper floor of a large house and the rooms were partitioned to create it. The flat does not have any original features. The work will not alter the external appearance of the building.
