Environmental Health: I understand that Planning Permission had been granted in respect of Application number Lu/84/16/PL and Conditions 4 & 5 shall continue to apply in respect of this new submission. As previously stated this Department is concerned that the continued use of the Lower Ground Floor for 'Leisure Purposes,' as yet undefined, has potential to cause noise and possible vibration nuisance to the detriment of any overhead residence. The current applicant's desire to use the lower ground floor in a way perhaps less likely to cause annoyance, for example as a health or fitness facility, unfortunately does not restrict any future use within this Class. It is therefore imperative that mitigation provided to deal with possible noise and vibration transference is of the highest standard. The matter requires research by a properly qualified practitioner whose advice must be properly applied. This must take account of any possible flanking transmission. It is further recommended that the Hours of Operation of any use of the lower ground floor be restricted to between 7.00 – 21:00 hours on any week day and between 8:00 and 20:00 hours on any Saturday, Sunday or Bank or Public Holiday. This is again in order to prevent detriment to the amenity.
