Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Please provide the following information below: tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

Eq. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

Our appraisal for the main extent of work needed for prudent management of the trees on the road side perimeters of the convent and 'Old House' is as follows:	
The Holm oak to be crown reduced by 30 % with the Sycamore sapling (advanced) taken out.	
The live Chestnuts to be cut to original nodes. Those rotten to be removed.	
The bays to be extensively trimmed.	
The Macrocapa to be trimmed.	
The fence line tree growth across the street:	Old House East Street and Franciscan Way
The Leylandii to be trimmed as far back as possible.	
The Oaks to undergo 20% crown reduction.	
Other subjects not listed to be managed as required.	

8. Trees- Additional Information

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.
