LU/1/19/PL

The proposal affects a locally identified Building or Structure of Character. Such a property is therefore identified as a heritage asset where development should ensure that its significance it not detrimentally affected.

I note that the current application relates to amendments to the internal plan of the approved two storey house at rear and an enlargement to the approved roof terrace through the introduction of a small extension. It is considered that the alterations will not detrimentally affect the character or the property, and can therefore be supported, in accordance with the policies in chapter 16 of the Arun Local Plan.
