Hi Katie and thanks for your email.

I have now reviewed that below and the information provided within the link.

From the highways point of view specifically with regard to the planning applications LU/206/21 and LU/369/21, I am happy that they have now provided sufficient information. Please note that some changes might still be required at the S38/278 stages and the comments in the Road Safety Audit Decision Logs reflect this and the applicants are aware and accepting of this.

Let me know if you want a final highways-related response for your file reiterating/confirming the comments above or if this email is sufficient for your needs.

Regards,

Tim
