Hello Kathryn,

Please find attached the amended drawings for 6 Genoa Close, the amendments are as we discussed on the phone earlier today.

The first floor extension on the front elevation has now been removed. The proposed front elevation now matches No.7 and looks balanced and in keeping with the street scene.

The proposed side extension also matches exactly what has been permitted at No7. in relation to its ridge height and the extension at the front of the existing garage at ground floor level.

I hope you can now support the Application.

If you require anything else or have any questions please just let me know.

kind regards,
Nat
