Dear Anita,

I am disappointed that a request for an Extension of Time has been requested given the fact the Council has not engaged positively or proactively at any point during the course of this application; furthermore, the only reason this request appears to be have been requested is to cover the Council's statistical returns to government and therefore mis-using the purpose for which the EoT process is in place.

However, we reluctantly agree to the EoT until 25 October 2019 to allow you to issue the decision on this application, and we trust that the decision will be one of approval.

Kind Regards

Dear Karen,
Unfortunately I have a significant caseload and most of my applications have exceeded their target dates already. Your application is relatively new. I am trying to deal with my caseload in order of urgency, prioritising the oldest applications first and I am unlikely to be able to put time to working on your application for at least another month.
