Dear Sir/Madam,

Town & Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure) (England) Order 2015

Application No: LU/214/20/PL
Site Address: Empty Supermarket Premises Avon Road Littlehampton BN17 6AT
Description of works: Demolition of existing buildings & redevelopment comprising 37 No. residential units (Class C3) & flexible commercial floorspace (Class A1, A2, A3 and/or D1) together with the provision of car & cycle parking, landscaping & associated works (resubmission following LU/3/19/PL). This application affects the setting of listed buildings & may affect the character & appearance of the East Street, Littlehampton Conservation Area. This application is in CIL Zone 4 (Zero Rated) as 'flats & other development'.

Thank you for your internet representation made on 4th November 2020 which has been recorded as an objection with the comments as follows:

OWPC30983

Please find listed the serious concerns of the residents who live next to the proposed development:
Surrounding Area of Proposed Development

The buildings to the Northeast, East and Southeast are all part of the East Street Conservation Area, deemed as such for a reason. They are attractive historic buildings which line one of the main routes to the seafront. The new submissions still show a higher floor than the East Street cottages and Avon house and would ruin that approach. It does not appear from the letter from the developers that they have considered the fact that the land in question is elevated. All the buildings on the three approaches to the town from the A259 are character buildings (or have been designed to blend) and give the first impression of Littlehampton to visitors.

The existing surrounding properties are serviced by drains built by the Victorians. It is debatable whether these would cope with any extra wastage and survive the actual building work itself (e.g. any piling). There is also a well in the vicinity. The water pressure is already low in this area so presumably more dwellings could compound this problem. This area has also suffered from flooding before.

All our houses are Victorian and built on the soil with footings of approximately two feet deep we believe. The driving of piles or any alternative could be extremely detrimental to our homes. The same applies to the heavy vehicles and machinery that would be required.

Avon Road was not built with this sort of traffic in mind. A delivery lorry or dustcart would effectively block this

single lane/one-way road.

We have definite environmental issues with dust and building debris. Our houses would effectively be within a building site so we would not be able to use our gardens comfortably for recreation or washing etc. Noise pollution would also affect us. Building dust is an issue for certain individual's local resident's health.

The residents of the above properties have all been keen to encourage wildlife and are extremely proud of what we have achieved so close to the town centre. This could destroy that.

The Planning Application

The number of dwellings has been decreased from the previous application, but the amount of car parking spaces is still not enough. This is not acceptable. Parking is a continuous problem in the town, and this would just compound it. Visitors will stop coming to the town if they continuously must drive round to try and park and us, as residents, struggle as it is.

The buildings are still far too high and not in keeping with the area at all. To put this in the centre of Littlehampton does not have any beneficial positives for the seaside town or its residents.

There is a conveyance on part of the land which includes a right of way which is clearly stated on household deeds. This is constantly being used by residents and is needed for access/work but the application does not seem to show any mention of this legal right. Another indication, it appears, of the lack of thought and attention to detail by these people who do not live in our town.

Your views as made above will be considered before the application is determined.

Please be aware that Planning Services operate an 'open file' policy and will publish your comments on the website. Please make sure that you have only provided information that you are happy will be published in this way. If you have supplied information belonging to a third party, you must make sure you have their permission to do so. If you do not wish your comments to appear on the website or on the file you will need to confirm this by emailing to planning@arun.gov.uk and I will arrange for it to be destroyed although this means that the content will then be disregarded.

The majority of applications are determined under delegated powers by officers. Further information on the decision making process can be found on the website at :<https://www.arun.gov.uk/planning-decision-process>.

Some applications will be determined by the Development Control Committee, and I shall write and inform you of the date of the meeting and the procedures for public speaking if this is the case. However, if your representation has been received after the agenda for the meeting has been finalised and the notifications have been generated, you will not receive notification. In this case, you will need to track the progress of the application on the council's website <https://www.arun.gov.uk/weekly-lists>

Any comments that are received after the agenda has been finalised will be separately reported to the members of the Development Control Committee.

Regardless of how the application is determined I will notify you of the decision.

Yours sincerely

Neil Crowther
Group Head of Planning

For details of how the Council will deal with your data please refer to our privacy notices on the website www.arun.gov.uk/planning-privacy-statements

If you have provided an email address, all correspondence including the decision notice will be sent by email. It is therefore important that you keep us informed if this changes during the course of this application.
