Juan Baeza

Further to my conversation with you this morning regarding this planning application and your planning officers report. As you have suggested in order to correct your records and the error in the officers report I have sent you this email.

I can confirm as per my original letter of representation on file that I had NO OBJECTION to this planning application and the planning officer was wrong to suggest that my letter was an objection.

My view and comments as expressed in the letter and to you on the phone related to the additional patio doors which are included in this application and whilst in this case as we discussed again I have NO OBJECTION to the proposed alteration it would appear that the planning officer has possibly failed to consider the change of the patio doors.

As we agreed however, the fact that the doors in this case do not significantly impact or alter the appearance of the elevation, the fenestration and the symmetry formed by the neighbouring properties in this terrace means that there is no reason why this application should not proceed.

Regards

G McGeehan
