Dear Sir or Madam

Iv wrote before I think
it would be a bad idear
to build the flats and house
on the car park. We own
our house and been here
10 years. We have had
lots at floods in car park.
and taxi and anbalance
have been unable to go
round back. It will not
look good if we want to
Sale our house in near
future plus there will not
be room for a car
We need that space

We do not want to
move but the house
will face us and we
not feel private and
quite any more. Why
take away our car parks
you have other places
you can build you
are not thinking of
us or any of our
neighbours that own
these houses. This is
all wrong. We like to
feel we can go out
our back ways with
freedom and not have
only a small path what
about dustman ect
yours faithfully

I'm under hospital with kidneys
and very stress about this
