Dear Karl,

Re:- Planning Application. LU/223/14/PL
land to the North of 52-67 Greenfields

We are writing to object to the planning application referred to above and to politely request that you could consider the following issues when dealing with the application.

1. As much as new parking spaces are being created, it seems that they are really being moved and decreased. We have enclosed a recent photo of the

car park we use, taken at night. As you can see it is a busy and well used parking area. Taking this away will mean we will all be forced to park further away from our homes. As we both have back problems this will become a worse issue for us when having to unload shopping etc from our vehicles.

2. With regards to some of the 'new' parking spaces, showing on the map ^{that} I have enclosed, the plans are misleading & wrong. This is because the total amount stated are not new. There are already spaces there of which many are already used on a regular basis by people living in 'Elsping Mead'.

3. At present we leave our

rubbish out for collection at the end of our block of houses in the corner of the car park. This will no longer be the case if the plans go ahead. Looking at the said plans it seems like we are going to have today's journey with our rubbish which is three times that which we do now. This will also have an impact on our back problems.

4/ We feel that to fill up the car park with houses and decreasing parking spaces would mean serious overcrowding and make for uncomfortable living for all residents, old and new. Overcrowding doesn't make for harmonious living conditions and fighting for parking spaces will cause disputes

We would like to state that we are in no way opposed to new council house building, but feel that this needs to be done in appropriate areas and to be planned sympathetically to accomodate both pre-existing residents and newcomers.

We hope you will consider the points ~~we~~ have raised here and maybe try to understand the impact this 'build' will have on all concerned.

Yours Sincerely

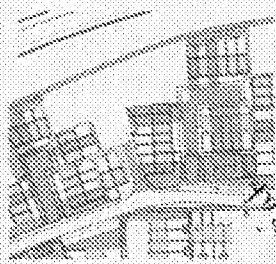

Sandra Saxby

Stephen Tate
