Sian,

I have attempted to update the planning application for the proposed driveway. The system is asking me to pay again for the application, I assumed I would be able to edit the application until the 16th which was the date you extended the process too. Please see attached the location/block plans you required, are this to the standard expected?

Your assistance is greatly appreciated.

Regards,

Ian Chappell

>

> Dear Mr Chappell

>

> I am happy to give you an extension to the 16th of august if you would prefer to wait to move in but the measurements from the block plan are fine too. If you need any additional time then just drop me an email and I can extend it further.

> In terms of joint applications it is possible to submit one however as I just do the validation and not the planning officer work I cannot advise on the best course of action regarding this also as I'm not based in the area it would be difficult for me to say. My advice on the matter would be to call up Arun council and discuss this with them. They may be able to send out a planning officer to you to in order to look at a joint application and at the very least be able to advise on the best way forward with this.

> Sian,
>
> Thank you for this information it makes a lot more sense now.
> Unfortunately I am not moving in until the 8th of August so I will struggle to get the measurements you require unless you are happy for the measurements to be taken from the planning/block? Otherwise an extension to the end of August would give me plenty of time to get all the paperwork in order.
>
> Also I discussed my plan for a driveway with my new neighbours, when I should have taken the opportunity to take the measurements required, but they are intrested in doing the same work and getting a driveway in. Is a joint application possible/advisable or should we all get separate applications then try and timetable the works to happen at the same time?

>>
>> Dear Mr Chappell
>>
>>
>>
>> Following on from our conversation below is a link for new plans. Location and Block plan is what is required. I have attached a help sheet for what dimensions are required for a crossover. Your block plan doesn't need to look like the above it just needs to include the 4 dimensions. One from the house to the pavement. The width of the crossover at the property edge, the depth of the crossover and then the width of the crossover at the road (if different). The splay can be includes on that plan as well or on a separate plan.
>>
>>
>>
>> If you require an extension past the 5th of August please let me know and ill be happy to extend the date as long as needed.
