Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Will the proposal increase the flood risk elsewhere?

- ☐ Yes
☒ No

How will surface water be disposed of?

- ☒ Sustainable drainage system
☐ Existing water course
☐ Soakaway
☐ Main sewer
☐ Pond/lake

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

b) Designated sites, important habitats or other biodiversity features

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

c) Features of geological conservation importance

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:
Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:
The development is on existing hardstanding so exemption Regulation 4 should apply meaning no BNG assessment is required.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Foul Sewage

Please state how foul sewage is to be disposed of:

- ☒ Mains sewer
☐ Septic tank
☐ Package treatment plant

Details of the pre-application advice received

DESIGN AND VISUAL AMENITY

The rear extension is double the recommended depth at ground floor level. However, given that the neighbouring building features a rear extension of a similar depth, on balance, the ground floor extension would be acceptable in terms of its depth.

Although full details of the fenestration changes have not been submitted, some minor fenestration changes may be acceptable. The submitted block plan indicates a new enclosed garden area within the site frontage, enclosed by a high level fence. Full details of enclosed area have not been submitted, however this element would extend forward of the established building line and given the height of the proposed fence, this area would appear incongruous within the street scene

The first floor rear extension by reason of its siting, scale and design, would appear as a visually obtrusive form of development and would result in demonstrable harm to the character of the locality and the visual amenity of the host building, street scene and wider area.

RESIDENTIAL AMENITY

The proposed development would not result in significant adverse overbearing or overshadowing impacts and is therefore in accordance with policy D DM1 and D DM4 of the Arun Local Plan and the ADG.

PARKING AND TRANSPORT

The development would increase the size of the building. It is unclear whether the development would directly increase the capacity of the building. This should be clarified as part of any planning application to ensure any increase to the capacity of the building would not have an unacceptable impact on the highway network. It is unclear whether the fenced area to the front of the site would impact the existing on site parking provision. Notwithstanding this, the fenced area has been identified to result in harm to the character and appearance of the street scene and as such, this should be removed

HERITAGE

The the two-storey rear extension would result in less than substantial harm to the Building of Character and Conservation Area and no public benefits have been identified which would outweigh this harm. As such, the development is contrary to policies HER DM2 and HER DM3 of the Arun Local Plan and the NPPF (2024).

SUMMARY

Overall, the first floor rear extension by reason of its siting, scale and design, would appear as a visually obtrusive form of development and would result in demonstrable harm to the character of the locality and visual amenity of the host building, street scene and wider area. The development would result in less than substantial harm to the character and appearance of the Building of Character, a non-designated heritage asset, and the Conservation Area, a designated heritage asset. No public benefits have been identified which outweigh this harm. The development is contrary to policies D DM1, D DM4, HER DM2 and HER DM3 of the Arun Local Plan, the ADG and the NPPF.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
