1.0 INTRODUCTION

- 1.1 This Residential Travel Plan (RTP), has been prepared as part of a planning application for a proposed residential-led development at the land to be known as Hampton Quay, Littlehampton, West Sussex, BN17 5RA.
- 1.2 The site, located adjacent to the River Arun, is shown on **Figure 1**. The development proposal will see the site re-developed to provide 105 flats, 32 moorings on the river and ancillary restaurant / commercial land use with appropriate landscaping, amenity spaces, and parking provision. Vehicular access to the site is already in-situ from Bridge Road Roundabout on the A259. **Appendix A** contains the proposed site layout plans.
- 1.3 The Transport Assessment also submitted as part of the application provides an assessment of the existing site conditions and identifies potential connections with existing public transport services and walking / cycling infrastructure. The RTP draws upon this information to provide a suitable structure to enable the reduction of Single Occupancy Vehicle (SOV) trips.
- 1.4 Over the course of the planning and design process the proposed site layout has been carefully arranged to ensure that:
- The footway network through the site will enable safe pedestrian access between the site and the existing pedestrian / cycle network;
 - The internal layout will allow for safe passage of non-motorised road users;
 - All residential properties have sufficient cycle storage provision; and
 - The site frontage with the River Arun has been designed to provide a footpath which will both function to serve the site now but also enable future connection to further sections of riverside footway / cycleway as other land adjacent is redeveloped / improved.
- 1.5 In accordance with national and local government policy the site has been designed to promote sustainable, healthy lifestyle choices, and provide the means for residents to reduce SOV trips.

2.0 EXISTING CONDITIONS

- 2.1 The development site is located to the north east of Littlehampton, adjacent to the A259 and the River Arun. Refer to **Figure 1** for the site's location.
- 2.2 The site comprises c.2.7ha of undeveloped land, however it has previously been used as a caravan park. Vehicular access to the site is already in-situ from Bridge Road Roundabout on the A259.
- 2.3 The development proposal will see the site re-developed to provide 105 flats, 32 moorings on the river and ancillary restaurant / commercial land use with appropriate landscaping, amenity spaces, and parking provision.
- 2.4 A site plan showing the parking and servicing layout of the proposed development is presented in **Appendix A**.

Sustainable Accessibility

- 2.5 Sustainable accessibility is one of the key themes of the NPPF and an important factor in the determination of planning applications. Guidance published by The Chartered Institution of Highways & Transportation (CIHT) recommends maximum distances of 2km for walking and 5km for cycling to key destinations, as such this guidance benchmarks the accessibility of the site.
- 2.6 The remainder of this section reviews the existing accessibility of the site to local facilities and amenities via sustainable travel modes, with **Figure 2** also illustrating the site's accessibility.

Walking and Cycling

- 2.7 The site is host to a short Public Right of Way (PRoW) to the north of the site, which provides access to the bottom of a set of steps connecting to the carriageway of the A259. Slightly further afield there are PRoWs which run adjacent to the western bank of the River Arun, and which also connect Tesco to Lineside Industrial Estate.

- 2.8 At present a cycle lane is provided adjacent to the northbound carriageway of the A259 Bridge Road, approaching Bridge Road Roundabout, up to the point of the bridge over the river Arun. Further cycle lanes are provided from the roundabout on Broad Piece to Lineside Industrial Estate, which in turn connect to cycle paths and cycle routes which connect to Littlehampton town centre to the south and to Wick Roundabout to the north east.
- 2.9 Highway works at Bridge Road Roundabout, set out in the S106 for the 'Kingley Gate' development located on the A259 to the north of the site, will give the site full connectivity to the existing footway and cycleway network, most notably linking facilities to those already present on Broad Piece. Extracts from the S106 for this planning consent (reference LU/355/10/) are presented in **Appendix B** including the scheme plan for the roundabout.

Public Transport - Buses

- 2.10 The nearest bus stop is situated c.400m walk from the bottom of the access road into the site and provides access to Compass Travel's route 12 bus service, which operates from Tesco, via Littlehampton town centre, to Rustington Sainsburys with hourly weekday daytime services.
- 2.11 Most notably the site benefits from access to both the central and eastern parts of the Coastliner 700 route which serve Littlehampton. Stops located on the B2187 Bridge Road are within c.450m walk of the site which are served by the Littlehampton to Bognor Regis and Chichester leg of the overall Coastliner route; at Chichester connections can then be made to the western part of the route to Havant and Portsmouth. The eastern part of the route from Littlehampton to Worthing and Brighton is accessible within a c.750m walk from via Clun Way, reached via Broad Piece and the footway / cycleway route to Lineside Way. The Chichester services for the Coastliner 700 typically run up to every 20 minutes, with services every day including early morning and late evenings, whilst those to Brighton typically run every 10 minutes.
- 2.12 The bus service timetables and network maps are presented in **Appendix C**, whilst the stops and routes in the locality of the site are shown on **Figure 2**.

- 2.13 The development site is therefore within walking distance of frequent bus services, which provide access to the town centre of Littlehampton, but also other town / city centres and shopping areas, notably Chichester, Bognor Regis, Worthing and Brighton.

Public Transport - Rail

- 2.14 The site is just over 1km from Littlehampton railway station, which is served by Southern trains. Littlehampton is a terminus station, typically benefitting from four services an hour departing to destinations between and including London Victoria and Brighton (both via Worthing & Hove), Portsmouth and Southsea, and Bognor Regis. Refer to **Appendix D** for the service timetables and network maps.
- 2.15 The station is located within a 15 minute walk, 4 minute cycle, and if people so wish within a short bus journey from the site, thereby allowing for accessible and sustainable travel modes onward travel to key destinations.

Local Facilities and Amenities

- 2.16 The development site is well located for access to several key facilities and amenities, the most notable of which is the Tesco Superstore and Petrol Station, which is located within a 400 metre walk of the site.
- 2.17 To demonstrate this, an assessment of access to such facilities within acceptable maximum walking (2km) and cycling (5km) distances using existing routes has been undertaken. **Table 2.2** overleaf summarises these facilities, while **Figure 2** illustrates their location relative to the site.

**Table 2.2: Local Facilities**

Potential Barriers to Sustainable Travel

- 2.18 It is recognised that walking, cycling and public transport may not be the most suitable travel choice for residents all the time. However, given the site's proximity to the existing urban area of Littlehampton there is potential for many trips associated with the development to occur by sustainable modes.
- 2.19 For those journeys which are made by car there is scope for the RTP to encourage residents to plan their journeys more carefully, resulting in more linked trips or off-peak travel as well as reducing SOV journeys.
- 2.20 It is therefore important that the RTP provides adequate and accurate information so that residents can make informed decisions regarding their travel choices.

3.0 AIMS & OBJECTIVES

3.1 The aim and objectives of the RTP are to help and encourage people, as individuals or within organisations, to make informed choices about their travel. To that end travel planning guidance provided by West Sussex County Council (WSCC) concurs with the RTP's key objectives which can be summarised as:

- Reducing congestion;
- Improving air quality;
- Improving road safety; and
- Reducing noise pollution.

3.2 Residential travel planning tends to work differently to plans designed for school, employment and retail use, which can often have a greater influence on travel habits through physical restrictions.

3.3 This RTP will therefore be used to inform the preparation of travel information packs to be given to residents, as recommended by WSCC. These packs can be excellent tools for informing residents of the travel choices available, and act as a mechanism for delivering incentives and additional information.

3.4 The key issues that will form the objectives of this RTP in the context of the development proposals are:

- **Objective 1:** To reduce the number of single occupancy vehicles (SOVs) to and from the site;
- **Objective 2:** To increase the use of sustainable modes (walking, cycling and public transport);
- **Objective 3:** To encourage residents to choose modes of transport that will provide benefits to their health and wellbeing; and
- **Objective 4:** To increase awareness of and encourage the use of available sustainable modes of transport.

4.0 TARGETS

- 4.1 To monitor whether the objectives set are being achieved, several targets relating to mode share will be set by the Travel Plan Co-Ordinator (TPC); refer to **Section 6** for a detailed description of the TPC role.
- 4.2 Targets should always be challenging yet realistic. For this RTP, the targets set will be SMART: Specific, Measurable, Achievable, Realistic and Time-Bound.
- 4.3 Although the final targets will be set once the baseline mode share is established via the initial travel surveys, estimates of mode share targets for journeys to work are presented in **Table 4.1**, and are based on those reported in the 2011 Census 'Travel to Work Data' for the Wick area of Littlehampton.

Table 4.1: SMART Targets Example – Journeys to Work

Mode	2011 Census Mode Share in Wick, Littlehampton	Year 1	Year 5
Train	5%	5%	6%
Bus, minibus or coach	2%	2%	3%
Motorcycle, scooter or moped	1%	1%	1%
Driving a car or van	63%	62%	57%
Passenger in a car or van	8%	8%	9%
Bicycle	5%	5%	6%
On foot	14%	15%	16%

- 4.4 Using this information as a guide, initial targets for the first and fifth years following completion of the development have been identified. These targets will be updated following the initial travel survey (to be completed following 50% occupation of the development).
- 4.5 Based upon the traffic generation calculated for the development site in the Transport Assessment, **Table 4.2** summarises the 12-hour weekday trip rates to which the RTP targets will be applied and the 5-year target that the RTP will seek to deliver.

**Table 4.2 - 12-hour Trip Rates and 5-Year 10% Reduction**

	Trip Rate	Traffic Generation (105 Flats)	Traffic Generation Following 10% Targeted Reduction
Arr.	1.162	122	110
Dep.	1.239	130	117
Two-Way	2.401	252	227

- 4.6 The overall objectives will be to reduce the SOV trips by a total c.10% over 5-years, while increasing the mode share of other more sustainable travel modes.

5.0 MEASURES

5.1 This section of the RTP outlines measures to promote travel by modes other than the private car as well as reducing SOV trips.

5.2 This RTP is therefore not anti-car, as travel by car is often desirable and convenient. The measures instead aim to reinforce the availability of other methods of travel, such as walking, cycling and public transport, and to inform new residents of the site about the availability and benefits of alternatives, that they may not be aware of or may not have considered. The package of proposed measures include:

- Appointment of a 'Travel Plan Coordinator';
- Promotion of walking and cycling;
- Promotion of bus services;
- Promotion of car sharing;
- Provision of travel information;
- Reduction in car parking, as required;
- Provision to homeowners of 'Travel Packs'.

5.3 To achieve the targets and subsequently the objectives of the RTP several measures will be implemented, and actions taken. Although a selection of actions and measures is suggested at this stage, the final list will be determined once the initial travel surveys have been completed and the monitoring report submitted to WSCC. The potential measures are set out in **Table 5.1**.

*Travel Pack to be made available in printed and electronic format

- 5.4 Most of the measures identified are deliverable within the role of the TPC, the budget of which will be agreed and set at reserved matters stage when a TPC has been appointed.
- 5.5 Other initial start-up costs would include the setting up of, design and running of a web-site (c.£2,500 - £3,500 plus £500 per year) and the design and printing of 'travel packs' for each dwelling, the cost of which is to be confirmed.

6.0 TRAVEL PLAN CO-ORDINATOR

- 6.1 The TPC role is often undertaken by an appointed individual from a specialist Transport / Travel Planning consultancy under the auspices of the developer. Details of the TPC will however be firmed up at the reserved matters stage and prior to first occupation.
- 6.2 Due to the scale of the development the role in this instance will be part-time; with a minimum of two to three days per month being required. An additional five to six days' time per year may also be required for compiling the annual monitoring reports, liaising with the local authority and updating information contained within the Travel Packs and on the development's website.
- 6.3 The final details of funding will be discussed and confirmed once the application has been approved by the local planning authority however an initial estimate is that the TPC role will likely require a budget of c.£30,000 – £35,000 over five years.

7.0 MARKETING & PROMOTION

7.1 To promote the RTP and to engage fully with residents several mediums will be used, including:

- Travel Pack: a physical and electronic document that will contain a variety of information including, bus / rail timetables, walking and cycling maps, TPC contact details, travel vouchers etc;
- Residents Forum: the TPC will help to set up a resident's forum / steering group to allow for on-going feedback and issues to be reported throughout the year;
- Website: specifically, for the development that can serve as an electronic noticeboard, as well as provide a range of links to other useful travel information i.e. the WSCC journey planner www.westsussex.gov.uk/roads-and-travel/travel-and-public-transport/plan-your-journey;
- The TPC will be responsible for promoting events such as Walk to School Week, National Bike Week, European Mobility Week, National Lift-share Week, International Walk to School Month and Road Safety Week;
- Community Notice Board: located in a communal area within the development. This board can be regularly updated with promotions, events and other information; and
- Personalised Travel Planning: Contact details of the TPC will be provided within the Travel Pack, who can provide advice and assistance to residents regards travel and encourage sustainable choices.

8.0 MONITORING

- 8.1 The success of the RTP will rely on the regular monitoring of travel patterns and habits. A clear record of residents' travel choices, along with any issues that may arise needs to be kept. A target response rate of 35% (37 households) for the travel survey will be aimed for to ensure a suitable sample size is gathered.
- 8.2 To ensure a high rate of response various methods can be employed, including social media, door to door surveys, email and by post.
- 8.3 Multi-Modal TRICS surveys will be undertaken as part of the monitoring process within 6 months of 50% of the development being occupied and in the subsequent 3rd and 5th year of the RTP period. These will be conducted alongside annual travel survey questionnaires.
- 8.4 It may be that incentives are needed to encourage residents to participate in the questionnaires. A review of the success of this method will be needed to ensure accurate data can be gathered.
- 8.5 A copy of an example questionnaire that accords with the criteria set out by WSCC has been included in **Appendix E**.
- 8.6 The TPC will be required to submit an annual monitoring report to WSCC, within three months of the annual travel survey being completed.

Remedial Measures

- 8.7 The monitoring report will provide an indication of the success or shortfall of the RTP to promote a reduction in SOV journeys.
- 8.8 At this early stage, it is unknown if additional measures to those presented in this RTP are required, however the TPC will engage fully with WSCC to determine the most appropriate course of action if this should occur. Some additional measures that could include be implemented are:
- Increased intensity in the promotion of walking, cycling and public transport;
 - Additional exclusive offers for residents;

-
- Provision of no-cost bicycle repair services e.g. 'bike doctor';
 - Rewards / prizes for reducing overall household SOV mileage; and
 - An additional round of £150 travel vouchers.

Ongoing Management

- 8.9 Following the initial appointment of the TPC and implementation of the RTP, the role will continue for a minimum of five years.
- 8.10 Following this period, the RTP will be reviewed and a final report submitted to WSCC outlining the successes, failures and potential areas for improvement that the development could benefit from.

Platform access points may vary and there may not be step-free access to or between all station areas or facilities. Access routes may be unsuitable for unassisted wheelchair users owing to the gradient of ramps or other reasons.

We want to be able to offer you the best possible assistance, so we ask you to contact us in advance of your journey if possible. We will always try to offer the best possible service. However, the shorter notice we receive, the less time we have to make arrangements and there may be a delay in you receiving assistance.
