Dear Sirs,

Please see attached report comments in respect of the above application.

The agents have submitted a drainage report setting out their measures for foul and surface water disposal at the site but do not discuss measures required to divert sewer as required by condition which is being refused. But with regard to condition 8 in the response you do not comment on the measures proposed in paras 2.2 of the report.

Could you advise if you are in agreement with the measures?

Regards

Anita Gardner
