This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals which include up to 5 residential units or extensions to single units accessed from roads that do not form part of the Strategic Road Network (SRN). As such the comments provided by Local Development should be considered to be advice only, with respect to this planning application.

This proposal has been considered by means of a desktop study, using the information and plans submitted with this application, in conjunction with other available WSCC map information. A site visit can be arranged on request.

I refer to your consultation in respect of the above planning application and would provide the following comments.

West Sussex County Council was consulted previously on Highway Matters for this location under planning application no. LU/383/04 to which no objections were raised.

The security fence is existing and as such this proposal seeks only to replace what is already present. In highway terms, there would be no material change to the existing situation. The works do not appear to extend over the public highway, and as such traffic management will be required whilst the works are being undertaken.
